

## Toxicology Manager - Active Beauty - Argenteuil (m/f) – Your future position?

Givaudan Active Beauty offers an extensive portfolio of innovative active cosmetic ingredients designed to bring beauty to the world. Inspired by the beauty needs of consumers worldwide, Active Beauty offers award-winning products for an expanded range of benefits including anti-ageing, self-tanning, soothing, hydrating, cooling, and more. Our cutting-edge technologies draw on science and nature to create high-performing molecules and functional agents, including customised carrier systems. Part of the Fragrance Division, Active Beauty leads the market in crafting innovative products supported by our strong expertise in advanced and applied sciences. Our cosmetic division is on growth mode and is therefore expanding its resources to support the future coming ahead.

Sounds interesting? It could well be your perfect opportunity if, like us, you always aim to exceed customer needs, deliver value and are skilled at fostering strong relationships.

In this exciting role, as Toxicology Manager for our Active Beauty division reporting to our Regulatory Affairs Manager, you will:

Be in charge of the **safety assessment** of cosmetic ingredients and provide with **toxicological support** to our customers ;

- Work closely with our **Science & Technology** Team on new developments and perform **regulatory and safety assessments** ;
- Be in charge of **regulatory support** for customers, communicate on **regulatory topics** and participate to **customer meetings** ;
- Participate to **trade association** meeting and working group.

### You ?

Are you someone who wants to grow and shape your own world? Who thrives being in a culture where you can express yourself in a creative team environment? Who wants to collaborate and learn together with teams who are as passionate as you are? Then come join us – and impact your world.

Your professional profile includes:

- Qualified and experienced toxicologist to work on new technology programmes, customer support and REACH programme and ingredient issues related to toxicology and regulatory compliance ;
- Masters and/or PhD in toxicology or any related discipline ;
- More than 5 years' experience in cosmetic ingredient, consumer product or any related industry ;
- Knowledgeable in biotechnologies, in polymer chemistry and toxicology ;
- Experience in problem solving skills to support fast-paced technology projects ;
- Knowledge of REACH regulations ;
- Experience in risk assessment and risk-based defense with regulatory authorities ;
- Good knowledge of chemistry ;
- Ability to build relationships, work with agility and make a strong contribution to diverse project areas ;
- Excellent verbal and written communication and presentation skills ;
- Effective in team working (face to face and over distance) ;
- Fluent in English. French language an asset.
